SUMMARY

Product manager with 6 years in B2B SaaS. Shipped self-serve onboarding, pricing, and analytics products that grew activation 34% and expansion revenue \$6M ARR. Data-driven, fluent in SQL, at home with engineers and designers.

EXPERIENCE

Senior Product Manager, Growth, Oakhaven Enterprise

Mar 2022 – Present

Austin, TX

- Owned the self-serve funnel for a 40k-customer HR platform; ran 28 A/B tests in Amplitude and raised trial-to-paid conversion from 9.1% to 12.2%.
- Led pricing and packaging redesign with finance and sales, adding a mid-tier plan that drove \$6M in expansion ARR in 12 months.
- Wrote PRDs and ran discovery for the enterprise admin console with 60 customer interviews.
- Partnered with data engineering to define the metrics layer in dbt and Looker used by the exec team.

Product Manager, Quillstack

Jan 2019 – Feb 2022

- Launched real-time collaborative editing (0 to 120k weekly active editors) working with a team of 8 engineers.
- Defined roadmap and OKRs for the docs product; shipped Slack and Jira integrations that lifted retention 11 points.
- Built the churn dashboard in SQL and Mixpanel and instituted a weekly metrics review.

Associate Product Manager, Summit Consulting Group

Aug 2017 – Dec 2018

Chicago, IL

- Ran requirements gathering and user stories for an internal analytics tool used by 500 consultants.
- Produced competitive analyses and market sizing for three client engagements.

EDUCATION

Northwestern University — B.A, Economics

Jan 2013 – Jan 2017
